CONDITIONS OF ADMISSION.

Examinations for admission to the College are held for several days before Commencement (June 23—26), and on the first day of the first term. While there may be examinations at any other time, all applicants are urged to present themselves on the days appointed.

Candidates for the Freshman Class are subject to examination in the following books, or their equivalents:

LATIN.—Latin Grammar; Latin Reader; two books of Cæsar's Gallic War; three books of Virgil's Æneid.

GREEK.—Greek Grammar complete; Greek Reader complete, or two books of the Anabasis.

MATHEMATICS.—Arithmetic, complete, including the Metric System; Elementary Algebra (Robinson's, Loomis's, or Olney's); Part I. of Olney's Geometry.

ENGLISH.—English Grammar; Spelling; Modern Geography.

A candidate for an advanced standing, in addition to the above studies, is examined in the various branches to which the class he proposes to enter has attended.

Satisfactory testimonials of good moral character are required, and those coming from other institutions must bring certificates of regular and honorable dismissal.

An accurate and thorough acquaintance with the studies required for admission is indispensable, in order to receive full advantage of the College course. It is found from experience, that students imperfectly prepared for the class they enter, are embarrassed in their future progress, and are seldom able to repair the want of complete preparatory study.

INSTRUCTION AND SUPERVISION.

The instruction in the College is given entirely by Professors, who have had the advantage of enlarged experience in their respective departments. They employ both text-books and lectures, as they find most efficient, or as is rendered necessary by the subject.

The discipline of the Institution is, as far as practicable, parental. The President and Vice-President, under whose immediate supervision the building is placed, exercise a constant guardianship over the whole body of students. In this the other officers also co-operate, and parents at a distance can feel assured that all judicious efforts will be made for the proper government and culture of their sons.

INTELLECTUAL AND MORAL SCIENCE.

Much attention is given to Mental Philosophy, Moral Science, and Christian Evidence. In several of these branches the use of text-books is combined with lectures. The aim is to give the student a clear and extensive acquaintance with these important subjects. The lectures embrace an examination of the leading tendencies and questions of modern thought.

PHYSICS AND ASTRONOMY.

The study of Physics extends over the second and third sessions of the Junior year. Instruction is given both by lectures and the use of the text-book. Experiments illustrating the principles of this Science are made by means of the Philosophical Apparatus in the possession of the College, a large part of which is of the most approved and modern construction.

The Seniors have Astronomy four times a week during the first session of the Collegiate year. Through the liberality of some of the friends of the College, an Observatory has been erected and supplied with the instruments necessary for class-instruction. The students are taught how to use the instruments, and then have the privilege of access to them for any observations they may desire to make. Frequent informal lectures are given to supplement the text-book and bring before the class the latest discoveries and the researches in progress.

A course in Meteorology is also given during the last session of the Junior year. The Meteorological apparatus is first-class, having been tested by the officers of the U. S. Signal Service. The text-book is Loomis's Treatise on Meteorology.

CHEMISTRY AND MINERALOGY.

In the regular course the instruction in Chemistry gives the students a practical acquaintance with the science as established by the most recent investigations, and shows the value of its applications and conclusions to the arts and economy of life. Four hours per week, during the first term of Junior year, are devoted to Inorganic Chemistry. Three lectures per week during the second and third terms of Senior year are delivered on Organic and Applied Chemistry.

Provision is made for Laboratory work, including Qualitative, Quantitative, and Mineral Analysis, and excellent opportunities are offered special students to acquaint themselves more fully, at small expense, with General Chemistry, or to prepare for the study of Medicine or Pharmacy, or for manufacturing pursuits.

Mineralogy is taught by having the student make a personal examition of the specimens belonging to the valuable Mineral Collection in the possession of the College. Excursions are also made to interesting localities. A portion of the first term of Senior year is devoted to this subject.

The facilities for instruction, in both class-room and Laboratory, are being constantly augmented.

NATURAL HISTORY STUDIES.

In Botany considerable time is devoted to practical exercises, so that a good foundation is laid in the Systematic and Structural

branches of that subject. Each student is required to name and mount specimens of at least fifty species of flowering plants.

Three hours per week during the second and third terms of Senior year are occupied with recitations in Geology, with a more extended examination of different topics, as time permits.

There are two recitations per week in Zoölogy and Physiology during the first and second terms of Sophomore year. Charts and Specimens are used in illustration.

Provision has been made for special lectures on Anatomy and Hygiene.

MATHEMATICS.

In the course of Mathematics there are four weekly exercises in the Freshman Class, three in the Sophomore Class, and two, during the first and second sessions, in the Junior Class.

The instruction in the Department of Mathematics is conveyed by the constant and systematic study of approved text books, interspersed with familiar lectures ; the student being assisted by full and frequent explanations from the Professor, and being constantly subjected to rigid examinations. The progress of every student in each class is also tested by his being required to perform miscellaneous exercises, in which the principles acquired are applied to the solution of particular problems.

LATIN LANGUAGE.

The instruction in this department comprises, in the earlier part of the course, drill in the rudiments of the language, with rigid grammatical analysis. Selections from the classics are translated into English, while a considerable portion of the time is occupied with Arnold's Latin Prose Composition. In connection with the study of Horace, especial attention is given to Latin Prosody, and the Historical and Mythological allusions of the text. In the latter part of the course, the derivation of Latin words and the development of the language from its older forms, is examined. The writing of Latin Essays is a regular exercise of the Junior and Senior Classes.

GREEK LANGUAGE.

The study of the Greek is continued throughout the course with more time devoted to it in the earlier classes. The continental

method of pronunciation is adopted, and the written accent observed in reading. Exercises in translating English into Greek, accompanied by writing, and illustrated on the black-board, form part of the course. Attention to the Etymology of Words, and comparative Philology, renders the recitations interesting. The Historians, Poets, and Orators of the best age of Grecian literature form the authors in the course.

ENGLISH LITERATURE.

English Literature is studied, first, historically, next, philologically, and then, rhetorically. The civil and religious history of the English nation is presented at the beginning of the course in the form of dictated notes accompanied by familiar lectures. This is followed by the history of the literature studied from a suitable text-book ; and an effort is made to show the influences in the condition of the people affecting the character and progress of the literature. In the Sophomore year Anglo-Saxon is taken up, and after a mastery of the elements of the Grammar, passages from the Gospels, Alfred, Caedmon, Beowulf, and other writings are read. Comparative Philology is begun in connection with this, and continued afterward, while the class are engaged upon such authors as Chaucer, Spenser and Bacon. Synonyms, grammatical equivalents, the idioms of the language, and difficulties in syntax at the same time receive attention. Webster's and Worcester's Dictionaries are used in the study of etymology, and further instruction on Affixes is given. A manual on Rhetoric is next taken up ; and the Junior year is appropriated mainly to literary analysis and criticism, with Shakespeare and Milton as text-books. The subjects of Political and Social Science have been attached to this department and occupy two hours per week during the Senior year. In each class there are weekly exercises in Essay-Writing, Declamations, select and original, and Debates.

THE GERMAN LANGUAGE.

This Modern Language, unsurpassed in its rich stores of literature, science and theology, is made a part of the regular College course. Opportunities are thus afforded for acquiring a thorough knowledge of the language, as instruction and exercises therein are continued throughout the entire course.

LITERARY SOCIETIES.

Two Literary Societies are connected with the College, the Philomathæan and the Phrenakosmian. These exert a favorable influence in the intellectual and social culture of their members. The halls occupy the two wings on the fourth story of the College edifice, and are conveniently and handsomely furnished. Their sessions are held every Wednesday afternoon.

Reading rooms, connected with the Societies, contain the prominent daily, weekly and monthly issues of the press.

LIBRARIES.

The College Library, to which all the students have access without charge, contains many valuable works.

By the income of a fund invested for that purpose, annual additions are made of the best publications. Additions to this fund are earnestly solicited.

The Libraries of the Literary Societies also comprise a large number of well selected and standard volumes, to which annual additions are made by appropriations for that purpose. These Libraries are accessible to the members of the Societies, under their respective regulations.

The College Library contains - - -	7,700 vols.
The Phrenakosmian " - - -	6,200 "
The Philomathæan " - - -	6,230 "
The Linnæan " - - -	100 "
The German Society " - - -	250 "

CABINETS AND MUSEUM.

Few Colleges possess a more complete Mineral Cabinet than the one now belonging to Pennsylvania College. It comprises very complete suites of most minerals. The Botanical Collection is well arranged and contains a full representation of American Flora. The Geological Collection has received valuable additions during the year. We urge on the friends of our Institution the needs of these indispensable aids to scientific education.

EXAMINATIONS.

A public examination of the classes is held at the close of each term. When a student is unavoidably prevented from being present at this examination, and his absence is excused by the Faculty, he is examined, at the discretion of the Faculty, either before leaving, or at the opening of the following term before entering his name on the roll of his class.

A careful record of the attendance, scholarship, and conduct of each student is kept; a copy of which record is transmitted to parents or guardians, at the close of each term.

If a student be absent for some time from the Institution, he must, on re-entering, sustain an examination upon the studies which his class has been attending during his absence.

The final examination of the Graduating Class is held five weeks before Commencement, from which time they are subject only to such duties as are required for their preparation for Commencement. Those who absent themselves during this interval must return before the delivery of the Baccalaureate Address of the President.

DEGREES.

To all members of the Graduating Class, in full and regular standing, a diploma is granted conferring the Academic degree of Bachelor of Arts.

The degree of Master of Arts, in course, is conferred on Bachelors of three or more years' standing; but, by resolution of the Board of Trustees, all applicants for this degree must make application to the Faculty, in writing at least one week before the Annual Commencement.

The degree of Bachelor of Science is conferred on students who, with adequate previous attainments, pursue a special scientific course and sustain an examination for the degree.

Provision is made for post-graduate degrees upon completing a prescribed course of study, according to the degree for which the student is a candidate, from the following general departments: Moral Philosophy and Evidences of Christianity; Metaphysics; the Physical Sciences; Mathematics and its Applications; the Ancient Classical Language and Literature; French and German; Political and Social Science; History, Biology, Comparative Philology, Philosophy and

Letters. A satisfactory examination on the prescribed course is required, and also a thesis written to be submitted to a committee of the Faculty for their approval.

All members of the Senior Class, upon their entrance on the last session of their course of study, pay an extra fee of Five Dollars to the Treasurer, with their college bills, which is refunded in cases of failure to obtain the degree of Bachelor of Arts.

SCHOLARSHIPS.

A number of permanent Scholarships have been endowed by congregations as well as individuals. G. W. Thompson, Esq., of Lancaster, has established a Scholarship for the purpose of giving the benefit of a Collegiate Education to the most successful and indigent pupil, who shall pass through the prescribed course in the High School of Gettysburg.

PRIZES.

The Freshman Prize.—A friend of the College has contributed the sum of five hundred dollars to the Institution, the interest of which is given at the close of the year to that member of the Freshman Class who, upon examination, is found to have attained the highest degree of scholarship in all the regular studies of his class.

This Prize for 1878 (class of '81) was awarded to Wm. P. Swartz of Harrisburg, and Chas. M. Eyster of East Berlin; with honorable mention of Frank R. Kahler of Millersburg, and Geo. L. Croll of Middletown. Mr. Swartz prepared privately for College, the other three entered from our Preparatory Department.

Hassler Latin Prize.—Mr. Charles W. Hassler has furnished a fund, the interest of which is annually expended for the purchase of a Gold Medal, to be presented to the student of the Junior Class, who, at the end of the year, shall be the best Latin scholar.

The Medal was awarded last year, 1878, (class of '79) to Harry C. Picking of Gettysburg, with honorable mention of Wm. K. Hill, Schenley. The former entered College from our Preparatory Department, the latter from Leechburg Academy.

Graeff English Prize.—This Prize was founded by Mr. John E. Graeff, of Philadelphia. The sum of $30 is awarded for the best Essay from the Senior Class, on a subject previously assigned. The decision is made by a Committee appointed by the Professor of English Literature.

The Class of '78 wrote on Shakespeare's "Coriolanus." The Prize was awarded to Geo. J. Benner, of Gettysburg, who entered College from our Preparatory Department.

The class of '79 wrote on Byron's "Childe Harold." The Prize was awarded to Geo. S. Diven, of Salona, with honorable mention of Luther Kuhlman, of Nebraska City, Neb. The former prepared privately for College, the latter at the State University of Nebraska.

The successful Essay is read in public, on the last Monday evening of the second term, each year.

The Committee of award for this year was

REV. J. C. KOLLER,..... Hanover, Pa.
REV. D. SHINDLER,..... " "
REV. W. E. PARSON,..... " "

RELIGIOUS EXERCISES.

Devotional exercises, conducted by the President or Vice-President, are held daily in the College Chapel. On Sunday morning all the students are required to attend public worship in the College Church, or in such other place of worship as their parents or guardians may designate by written request. They are required also to attend a Biblical recitation, conducted by the President.

EXPENSES.

The necessary expenses of the Collegiate year, exclusive of books, clothing, furniture, and traveling expenses, are about as follows:

Board, 39 weeks, at $3.00 per week,		$117 00
Tuition, for 1st term,	$20 00	
" 2d "	15 00	
" 3d "	15 00	
		50 00
Room rent, &c.,		9 00
Gymnasium Fee,		1 00

Fuel and Light,		10 00
Total for Collegiate Year,		$199 00

Boarding in clubs, may be procured at $2.00 to $2.75 per week.

Double room rent will be charged to any one who occupies a room alone; and notice of desire to do this must be given at the beginning of the year or term.

An additional fee of $1.50 per term for contingent expenses is charged to students not rooming in College buildings.

Parents or guardians may entrust funds for students to any member of the Faculty, and they will be applied as may be required.

Tuition must in all cases be paid in advance. No Student will be allowed to recite with his class until he has shown the Professor a receipt from the College Treasurer, or a note, stating that he has made some satisfactory arrangement with the Treasurer.

TERMS AND VACATIONS.

The Annual Commencement is held on the last Thursday of June. The first term begins ten weeks after the day of Commencement, and continues fifteen weeks; the second term begins two weeks after the close of the first term, and continues twelve weeks; the third term begins one week after the close of the second, and continues twelve weeks, until the day of the Annual Commencement. The Collegiate year is thus divided into three terms, of nearly equal length. The intervening periods of two, one, and ten weeks, are devoted to the vacations.

It is highly important that students be punctual in entering upon their duties at the commencement of each term.

Unexcused absences from recitation are counted as zeros upon the grade.

The attention of parents and guardians is especially called to the fact that absences from recitations, whether at the opening of terms, or at other times, are not excused except for sickness or imperative necessity.

The attention of School-boards and of others desiring teachers, is called to the fact, that it is frequently in the power of the Faculty to recommend suitable names.

Form of Bequest.
